Energy check

Capacity tester for primary cells and NiCd/NiMH rechargeable batteries. 3 years warranty.

Capacity tester for primary batteries and NiCd/NiMH rechargeable batteries of sizes AAA, AA, Baby C, Mono D and 9 V block. It is easy to handle and can be used everywhere thanks to its handy size. Indicators in 25% steps. - determination of the actual remaining cell capacity
- incl. 9V-battery
- 3 year warranty

ANSMANN ENERGY GROUP *(From Germany)*

Ni-MH rechargeable batteries

The energy source for high drain electronic equipment such as digital cameras, flash lights, CD/MP3 players, and torches. Provide powerful energy and most cost effective solution. Optimum efficiency when used with an Ansmann charger.

NiMH RECHARGEABLE BATTERIES

Type	Capacity	Type	Capacity
Micro AAA R03-UM4	800mA 900mA	Baby C R14-UM2	3500mA
Mignon AA R6-UM3	2200mA 2300mA 2400mA	Mono D R20-UM1	8000mA
		9-V-Block PP3-6F22	200mA

YOUR ENERGY FRIEND

ENERGY 4 high-tech plug-in charger

High-tech plug-in charger with automatic refresh/discharge function; capacity quick test for up to 4 cells at the same time. 3 year warranty.

Plug-in charger for 1-4 Micro AAA or Mignon AA cells in addition to 1-2 pcs. 9V block. Auto-diagnosis of the inserted cells with automatic start of a refreshing process, if required. Damaged cells will be detected and discharged before fast charging. -delta V charge for all inserted NiCd/NiMH cells; ultra fast charge; individual supervision of each cell position; faulty cell detection. With primary plug set and switch mode power supply for worldwide use.

Art.-Nr.: 5C07092

ENERGY 8 high-tech desktop charger

High-tech desktop charger with automatic refresh/discharge function and capacity quick test for up to 8 cells at the same time. 3 year warranty.

Desktop charger for 1-6 AAA or AA cells; for 1-4 C or D cells in addition to 1- 2 pcs. 9V E-block. Auto-diagnosis of the inserted cells with automatic start of a refreshing process, if required. Damaged cells will be detected and discharged before fast charging. -dV charging for all NiCd/NiMHcells; individual supervision of each cell position; faulty cell detection; switch mode power supply for worldwide use.

Art.-Nr.(UK): 5607142

ENERGY 16 high-tech desktop charger

High-tech desktop charger with automatic refresh/discharge function; capacity quick test for up to 16 cells at the same time. 3 year warranty.

Desktop charger for 1-12 Micro AAA or Mignon AA cells; for 1-6 Baby C or Mono D cells plus 1-4 pcs. 9V block. Auto-diagnosis of the inserted cells with automatic start of a refreshing process, if required. Damaged cells will be detected and discharged before fast charging. -delta V charging for all inserted NiCd/NiMH rechargeable batteries. Ultra fast charging; individual supervision of each cell position; faulty cell detection. Switch mode power supply for worldwide use.

Art.-Nr.(UK): 5607083

DIGICAM power-set traveller

Microprocessor controlled plug-in charger with optional discharging feature. 3 year warranty.

Plug-in charger for 1-4 Micro AAA or Mignon AA cells. Microprocessor controlled charging and individual supervision of each cell position guarantee best charging results independent of capacity, charge status and type of cells. Trickle charge avoids discharging of the rechargeable batteries after fast charging. Electronic switch mode power supply and primary plug set for Euro, UK, US and Australia allow the charger to be used worldwide and make it the ideal unit for travelling. Charger Set Includes 4 x NiMH cells AA (UM3) 2200mAh.

Art.-Nr.: 5C07023

DIGISPEED 4 one hour charger

High-tech 1 hour ultra-fast charger with innovative cooling technology for longest battery operating times. 3 year warranty.

Compact charger for 1-4 Micro AAA or Mignon AA. With 230V power supply for mains use or 12 V DC adaptor cable for use in cars, camper vans etc. A special ventilation technology avoids harmful warming of the rechargeable batteries as the cell temperature is permanently supervised. Microprocessor controlled charge for all inserted cells. Faulty cell detection and trickle charge guarantee best charging results. Slide switch for NiCd or NiMH batteries. Charger set incl. one hour charger; AC and DC-adaptor plus 4 pcs. Mignon AA cells 2200 mAh.

Art.-Nr.(UK): 5707033UK

BATTERY BOX

Storage system for up to 8 batteries size AA or AAA cells, CR123 A or up to 8 memory cards

- Pocket size
- Protects cells during transportation
-Avoids accidental shorting or discharging
-Solt together boxes

Art.-Nr.: 4000033
